PRINCE LOUIS of Battenberg got his eye teeth as well as his molars attended to in New York.

ONE can "copper" the Russian news dispatches to London almost as safely as they can the weather forecasts.

THE sultan of Turkey says he only wishes international fleet was on wheels so he could turn it loose in Macedonia.

THE officers of the Meriwether court are hearing a lot of evidence about matters they were perfectly well acquainted with years ago.

IF all the railway rate bills get a hearing in congress, Secretary Shaw will not be bothered by another appropriation bill as long as he stays in office.

THE papers are now telling how Gen. Trepoff was run out of office by a moving picture exhibit. There are many people who can thoroughly sympathize with Gen. Trepoff.

AS we understand Senator Platt's testimony, those insurance officials just insisted upon sending money around to his office about election time, and he did not have the heart to defend them by refusing it.

MR. McCURDY, president of the N. Y. Mutual, has cut his salary right square in two. However, what's left will enable him to scare the wolf away and buy baby a handsome Christmas present.

THERE will be no river and harbor bill at the session of congress this winter. Without a pork barrel we don't know how some of the members are going to live through until the new grass comes.

A SCORE of Tammany leaders have found it necessary to leave the city at this time "for their health." The political atmosphere of New York is certainly unhealthy for Tammanyites these days.

PRINCE LOUIS' ships will not need any ballast to keep them well down in the water when the 1,000 missing jackies, who have been seeing the sights of New York, return to their berths.

IT is stated that Secretary Shaw is going to the help of Wall street and as one good turn deserves another, Wall street may, on the first convenient occasion, go to the help of Secretary Shaw.

POLITICIANS will find that it is a good thing to let Ohio go Democratic. It will be necessary to placate the Ohio men with federal patronage before the congressional election next year.

THE man, who predicted that Mr. Fairbanks would some day become a senator, died in Indiana the other day at a good old age. The man, who predicted that he would be president, is in the enjoyment of good health.

ANOTHER aristocratic member of the old world nobility is about to tour the United States in musical comedy while another plebeian member of the new world plutocracy is about to visit England to put a few baronial halls in repair.

TOM LAWSON declares that he now has proxies controlling two of the biggest life insurance companies. He is evidently preparing for another magazine story telling the public how he got its confidence and then fleeced it.

SECRETARY HITCHCOCK'S New York organ says the country is to be congratulated on his decision to remain in the cabinet. The opposition papers say the country is to be congratulated on his getting out. There you have your choice both of news and sentiment.

A HAPPY HOME

Is one where health abounds. With impure blood there cannot be good health. With a disordered LIVER there cannot be good blood.

Tutt's Pills

revivify the torpid LIVER and restore its natural action.

A healthy LIVER means pure blood. Pure blood means health. Health means happiness.

Gov. DOUGLAS of Massachusetts knows something about the problems that confront a manufacturer, and he said in a speech at Springfield that he would gladly give up the duty of 25 per cent on shoes "for free hides and free sole-leather. If the handicapped of taxed leathers were taken away I could manufacture shoes as cheaply as any foreign manufacturer and could safely meet the competition of the world." Down with the robber tariff!

According to the Press-Spectator, Gerald Goetz of near Salisbury has for some time been annoyed by rats, and he determined to poison them. He bought some poison and cheese intending to give the rodents a good farewell meal. When he started to put the poison on the cheese he found it cold and sticky and he decided to put it on the stove, thinking that when it was warm it would be easier to handle. He put the lid on the box and set it on the edge of the stove a few minutes. When he undertook to lift the box from the stove and remove the lid, the box exploded, igniting the poison at the same time. The explosion threw the poison over Mr. Goetz' hand, but with presence of mind he wiped his hand on his clothes and spat on them, thus putting out the blaze, but not until his thumbs and several fingers were badly burned.

The 140-acre farm of the late Guy Hurt in the Forks of Chariton has been purchased by the Spellman Bros. for \$9,500. This is a fine farm and is well worth the price paid for it. Mrs. John M. Perley, Guy Hurt's sister and only heir, is the sole beneficiary of the sale.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture is the form of a label is on the wrapper of every bottle of Emulsion you buy.
